Your Total Beauty and Wellness Brand...

Aromatherapy Personals™ are naturally effective spa-grade treatments for bath, body, hair and skin that cover all aspects of emotional well-being from stress relief to healthy sleep. Firmly rooted in the traditional principles of aromatherapy, our natural essential oil based products work in harmony with the body's natural functions to promote healthy radiant skin and aim to bring the emotions back into balance. We believe that by bringing people closer to an emotional connection between health and beauty, we can enhance their overall well-being.

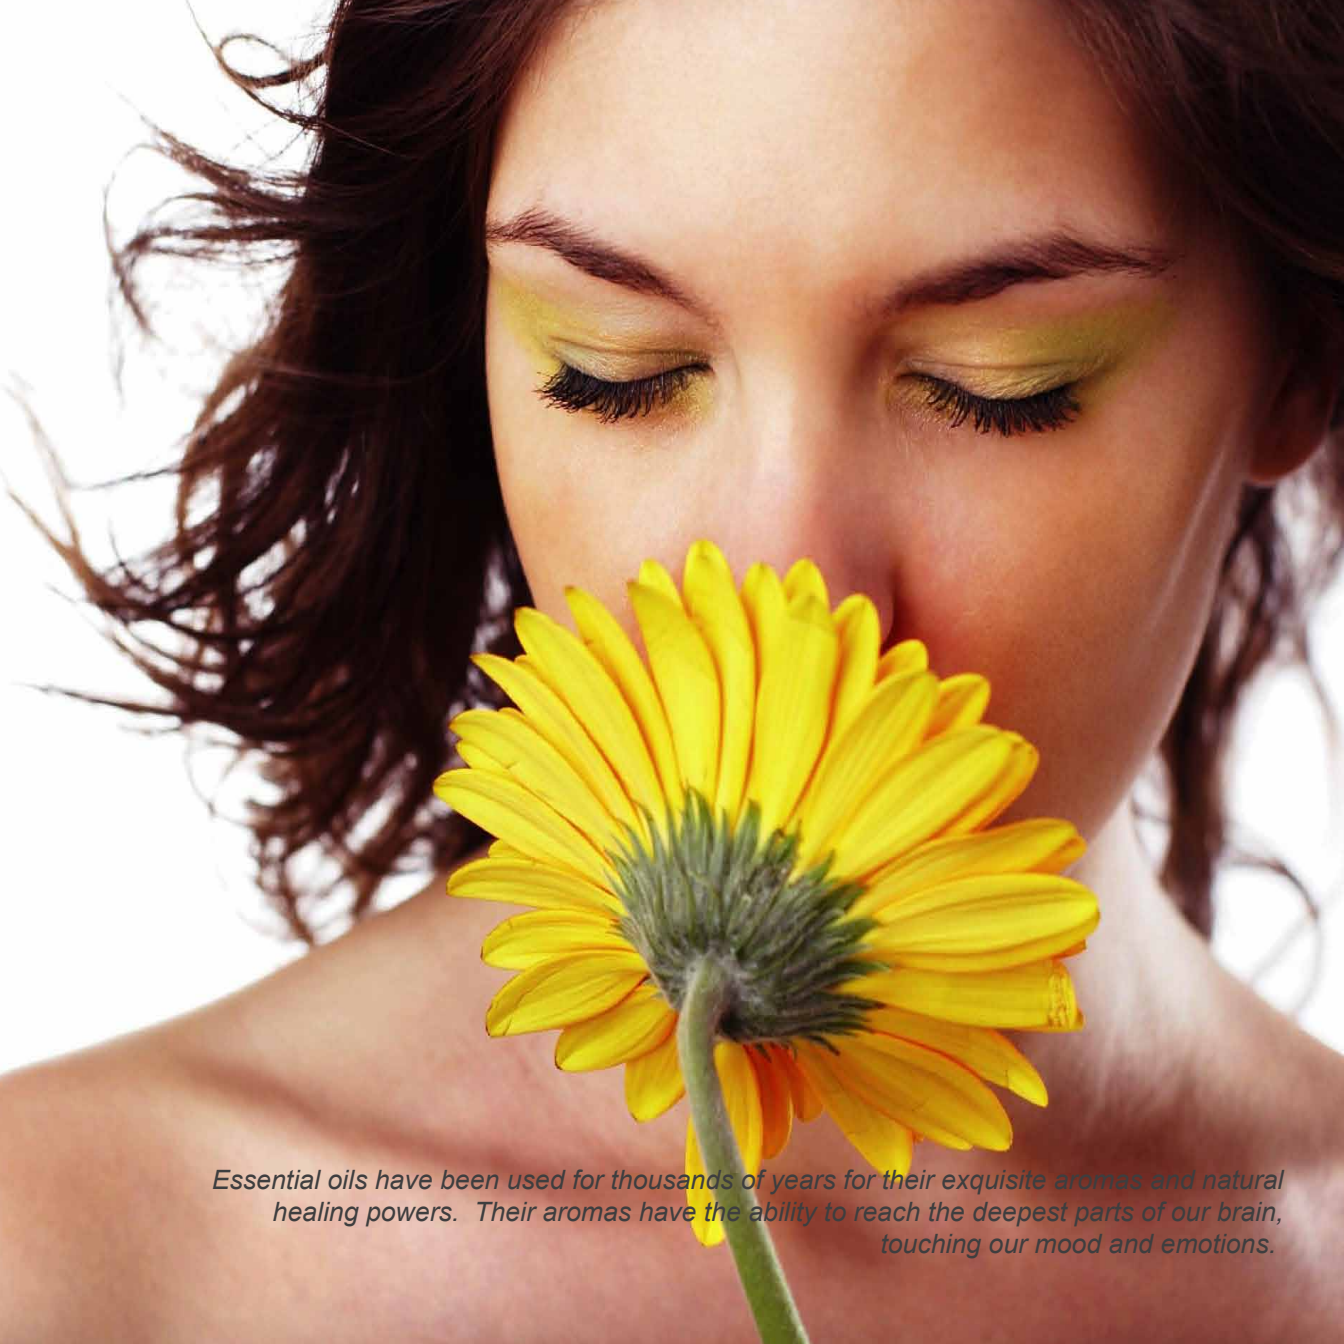

We embrace wellness ideals for people as well as for the planet. Our plant oils are derived from organically grown plants, where possible, using traditional methods, thereby avoiding the use of chemical pesticides or herbicides. We are committed to producing natural and essential-oil based products, without compromising quality, safety and efficacy. We make sure the ingredients we select bring real benefits to people's well-being. We endorse fair trade practices and support fair trade certified ingredients.

Pure from Nature Ingredients

100% PURE

100% naturally active aromatherapy ■ Pure organic plant oils, herbs, fruit extracts and essential oils ■ Derived from organically grown plants where possible ■ Vitamin and omega-rich plant oil bases, like Jojoba and Pomegranate that have a natural affinity with essential oils and your skin ■ Suitable for sensitive skin ■ Free from chemicals, synthetic fragrance or fragrant oils/perfume, alcohol, artificial colours, dyes, emulsifiers, petroleum and parabens

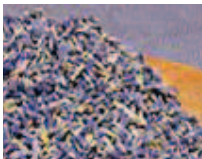

Essential oils have been used for thousands of years for their exquisite aromas and natural healing powers. Their aromas have the ability to reach the deepest parts of our brain, touching our mood and emotions.

Exquisite Aromas. Natural Healing Powers.

Our sense of smell is the most primitive of our senses, linked to the areas of the brain governing instinct, memory and emotion. Through the pathways between smell and the deep centres of the brain, essential oils can have a dynamic effect on our emotional state; they can help transform our moods and move us from one state of mind to another.
